MESSAGE FROM THE PRESIDENT

Thanks for your patience as we transition to the new tax billing process and thanks to Brenda for her responsiveness to questions. Remember, we will be having "town hall" sessions after the August meeting to help people with questions or to review documents needed to adjust bills.

Budget and Nominating committees have been formed and will present their recommendations in August. Phil Nuzzo is chairing the Nominating Committee for the four board openings that are available. If you are interested in learning more, contact him at [phil.nuzzo@gmail.com](mailto:phil.nuzzo@gmail.com).

We are looking for leaders to help us with Lake Hayward Days, Social, Recreation, Security, Teen Club and Properties Maintenance. Please get involved, contribute to the blog and support your community by attending at least one event. If you have a problem or complaint, feel free to call your beach rep or me, but be prepared to be part of the solution!

I hope that attendance is good for tonight's band, Hardwood, a local favorite. A lot more music is scheduled for the season, but your attendance will determine how and what funds are expended or not, and help your board in future planning.

A hospitality committee has been formed and thanks to Lynn Booth we have welcome baskets for our new neighbors! Email [lakehay-](mailto:lakehay-wardct@gmail.com)

[wardct@gmail.com](mailto:wardct@gmail.com) to help or let us know of new residents.

Scott Miers has volunteered to help organize the food for Lake Hayward Days/the Carnival. If you can lend a hand, please meet at the Pavilion on Sunday at 9:00am to discuss the menu. Dust off your favorite chicken wing recipe for our kick-off event! We have improved our process—no panel of judges, just people's choice award.

Thanks to Gail Edgington who has been busy selling Lake Hayward novelty and clothing items. The new hats are going fast! Gail is looking for help next year.

Please be courteous when playing on the beaches or in swim areas. An errant ball or toy can turn into a dangerous item when thrown. Please also take your garbage with you—there is a lot of trash

all over the beaches and parking areas.

The bicycle racks are in and will be installed soon. Please tell your little/big bikers and skateboarders that the Pavilion is off limits. The tennis courts are also off limits to skateboarders.

Finally, please do not touch others' boats. If it does not belong to you...please keep your hands off.

- Gail Grzegorzczak

## EAST-WEST COMMITTEE

Last Saturday's speakers drew a crowd of 30-35 people from both sides of the lake to hear the report on the studies done by the Eightmile River Wild & Scenic Watershed people, and further information from the Chatham Health District regarding the septic regulations and the letter sent this summer to all lake residents.

**Pat Young represented the Eightmile River** group and reported on findings from the studies done with grant money last summer on the health of the lake edge buffer zones. She handed out three maps, including one showing Lake Hayward watersides rated in three categories, depending on canopy and "understory", or healthy growth. The beaches received the worst ratings for ability to filter water run-off. A second grant had been completed on

drainage around all of Lake Hayward and in the other areas of the three-town Eightmile River Watershed area. Fully one-third of the Eightmile River Wild & Scenic Watershed is now protected land, which means better control of water quality. Lake Hayward and the Hamburg Cove area are the most densely settled areas in the watershed, so management of our run-off is critical to the health of the whole watershed. Pat also explained about the offering of plants made this Spring to homeowners at Lake Hayward. We will try to do it again next year in a way that more can be involved.

**Julianne Barrett, of the UCONN Extension Program** and author of one of our hand-outs on Riparian Buffer Sites, explained why plantings of good cover along the edge of lakes and streams is critical. It provides filtration of

water run-off, but also a breeding and hiding place for fish and other wildlife. There will be an email to those who have signed up to the East-West Committee list with attachments of the lists of plants offered at the Spring sale and also a recommended list of buffer plants.

And last, **Thad King of the Chatham Health District** spoke again about the septic regulations and the letter recently received by Lake Hayward property owners. Since 1982 when the DEEP established the water quality/septic

regulations, we have been required to do regular pump-outs but in 2007 changes in the health code made regulation much more strict. At least half of homes in the seven towns governed by CHD are below-standard, and the letter to LH and to people in Hebron is an attempt to force compliance. When a pump-out is done, the pumper has to report the condition of the unit to the CHD, and when the application for a permit is filed with the \$30 fee, the homeowner should be given a certificate. The CHD is behind in issuing these certificates, however, and many homeowners haven't had the work done to be eligible. However, without a current certificate of pump-out on file all building projects are blocked because permits will not be issued to a homeowner out of compliance with the regulations! And finally, penalties can be levied if work is not done to bring a failing unit up to code. A lively Q & A session ensued regarding types of units, types of soil, and distinctions between year-round and seasonal dwellings.
